

CC101 Introduction to Computing - Course Syllabus

Triple T University - College of Computer Studies - AY 2026-2027, First Semester

Course code	CC101
Units	3 (Lecture)
Instructor	Alan Turing (FAC-2026-001)
Section / Schedule	BSIT 1-A - MWF 8:00-9:00 AM - Lab 101

Course description. Fundamental computing principles, binary logic, and digital literacy.

Learning outcomes. By the end of the course, students can (1) describe the parts of a computer system, (2) convert between number systems, and (3) explain how hardware and software work together.

Week	Topic	Activity
1	Course orientation; What is a computer?	Lesson 1 slides
2	Number systems: binary, octal, hexadecimal	Assignment 1
3	Computer hardware and the CPU	Quiz 1
4	Software, operating systems and networks	Reading
5	Midterm examination	

Grading	Weight
Quizzes	30%
Assignments	30%
Attendance	10%
Major exams	30%
